Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
- I do know if I can afford my payments - I need to speak to my lender but do not know what to say - I want a practical recovery plan.	- How bad is my debt situation? - What settlement amount will sound realistic? - Will the lender reject my request?
PERSONA NAME <i>(Role / User Type)</i>	

DOES

- - Checks balances across creditors.

- Delays calls due to uncertainty.

Searches online for settlement letter samples

FEELS

- Stressed by overdue accounts

Relieved when numbers are visible

- More confident with a clear letter and offer.
