

Coding & Solution

Date	12 JULY 2026
Team ID	N/A – individual submission
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	Local project folder ready for GitHub upload: D:\AI Powered Debt Relief & Financial Recovery Platform
Programming Language(s)	Python, JavaScript, HTML/CSS
Framework(s) Used	FastAPI, SQLAlchemy, React, Vite
Key Features Implemented	Authentication, dashboard, loan management, settlement prediction, negotiation letter generation, history tracking, Docker setup

Pending / Incomplete Features	Authentication, dashboard, loan management, settlement prediction, negotiation letter generation, history tracking, Docker setup.
Setup / Run Instructions	Backend: pip install -r requirements.txt; uvicorn backend.app.main:app --reload --port 8000. Frontend: cd frontend; npm install; npm run dev. Docker: copy .env.example .env; docker compose up --build.

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

Additional Notes / Comments:
