

No. of Functional Features Included in the Solution

Date	12 JULY 2026
Team ID	N/A – Individual Submission
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	5 Marks

Functional Features Overview:

This document lists all the functional features included in the project solution. Each feature is described with its purpose, implementation status, and contribution to the overall solution.

S.No	Feature Name	Feature Description	Module / Components	Status (Done / In Progress / Pending)	Marks Contribution
1	User Registration & Login	Allows users to create an account and securely access the platform using JWT authentication.	Authentication	Done	10%
2	Loan Management	Users can add, update, view, and delete loan details including EMI, lender, and outstanding amount.	Loan Management	Done	15%
3	Financial Health Analysis	Calculates debt-to-income ratio and evaluates the user's financial condition	Financial Analysis	Done	15%
4	AI Settlement Recommendation	Google Gemini AI recommends suitable debt settlement strategies based on user financial data.	AI Engine	Done	20%
5	AI Negotiation Letter Generator	Automatically generates professional debt settlement request letters for lenders.	AI Letter Generation	Done	15%
6	Dashboard & Reports	Displays loan summary, financial insights, and AI recommendations through an interactive dashboard.	Dashboard	Done	10%
7	Database Management	Stores user profiles, loan records, AI history, and analysis securely using SQLite and SQLAlchemy.	Database	Done	10%
8	API Integration & Security	REST APIs connect the frontend and backend securely using JWT authentication and protected endpoints.	Backend/API	Done	5%

Feature Summary:

Metric	Count / Value
Total Features Planned	8
Total Features Implemented	8
Core / Must-Have Features	6
Additional / Nice-to-Have Features	2
Features Tested & Verified	8

Feature Category Breakdown:

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	2	Login Page, Dashboard
2	Backend / Logic	3	Financial Analysis, Loan Management, AI Recommendation
3	Database / Storage	1	User & Loan Database using SQLite
4	API / Integration	1	Fast API REST APIs with Gemini AI Integration
5	Security / Authentication	1	JWT Authentication and Password Encryption
